INTRODUCTION

Our main product is Rosaries-Misbah as we discovered that buying Misbaha is a passion that most Muslims share. For some people they prefer to own more than one piece or more genuine gemstones, especially Amber stones.

We trade in genuine Amber stones, and we import Amber from various countries all over the world. We even buy them from exhibitions ourselves and we select the best pieces available in the market. Some of these pieces are considered precious items and that is what we focus on when we buy these pieces.

We also have an on-hand delivery system in place to deliver items bought to customers in the UAE.

On Our website we also provide information on how to use the Misbaha, and how to care for the gemstones of these misbaha.

We target clients using social media platforms such as Instagram, Facebook, Tik Tok. And we have our own educated website online shop.

Our speciality

Amber rosaries are prayer beads made from amber, a fossilized tree resin valued for its warm color, natural beauty, and believed healing properties. Popular in both religious and cultural traditions, especially among Catholics and Orthodox Christians, amber rosaries are cherished not only for prayer but also as meaningful keepsakes or heirlooms.
